JOB CARD

Machine & Labor Times

How do you capture today who worked on which machine for how long?

FLEXXLINK MES · JOB CARD

🏭 Machine CNC-01	08:00 – 12:30
👤 Worker M. Smith	08:00 – 10:15
👤 Worker J. Miller	10:15 – 12:30

SÅDAN GØR DU DET BEDRE

Machine and labor times – separated and precise

One machine, multiple workers – each with their own time window.

🏭 **Machine Time**
Runtime of the resource

👥 **Labor Time**
Individual time per worker

⏱️ **Timestamps**
Start and end to the second

📊 **Cost Allocation**
Machine costs and labor costs separated

I PRAKSIS

Job Card Journal with machine and labor

FLEXXLINK MES · JOB CARD JOURNAL

🏭 **Machine CNC-01**	08:00:00 – 12:30:00
👤 **M. Smith (Badge 4711)**	08:00:00 – 10:15:00
👤 **J. Miller (Badge 4712)**	10:15:00 – 12:30:00

> *Machine time and labor time – captured separately, costed correctly.*

SPØRGSMÅL TIL DIG

How do you capture machine and labor times today?

→ Separated with individual timestamps?

→ Combined as a total?

→ Or only machine time without labor?
