MES INTEGRATION

MES meets Dynamics 365

How do you connect your shop floor with Microsoft Dynamics 365 Finance & Supply Chain Management today?

TYPICAL INTEGRATION

- 🏭 Shop floor / MES
- ↕️ Interface
- 📊 Dynamics 365

OPTIMIZATION POTENTIAL

How the connection can get even better

A well-designed MES integration brings transparency, speed, and data quality.

⚡ Real-time synchronization
Production data instantly available in Dynamics 365

✅ Validation before posting
External data gets checked before being posted

📊 Central monitoring
Monitor all messages in one workspace

🔄 Flexible automation
Synchronous, asynchronous or batch – as required

IN PRACTICE

All in one workspace – directly in Dynamics 365

FLEXXLINK MES · INTEGRATION MONITOR

248	→	245	→	242	→	3
Received today		Validated		Posted		Pending review

- Production Start – P-2024-0815 **Posted**
- RAF Progress – P-2024-0814 **Posted**
- Route Card – P-2024-0812 **Validated**
- BOM Picking – P-2024-0810 **Pending review**

No external UI, no iFrame – all native in Dynamics 365.

QUESTION FOR YOU

How does your MES connection to Dynamics 365 look today?

→ Do you have real-time transparency on production status?

→ Is external data validated before posting?

→ Can you monitor all messages centrally?
